- Fast learner
- Good communication skills
- Active listening
- Basic computer knowledge (Microsoft Office, email)
- Typing speed: 35-45 WPM
- Image and video editing

PERSONAL SKILLS

- Hardworking
- Teamwork
- Problem-solving
- Time management
- Adaptability
- Reliability

CERTIFICATION

- CISCO Networking Basic Course

PROFILE

BSIT graduate with hands-on experience developing responsive web applications using HTML, CSS, JavaScript, Bootstrap, React, PHP, and MySQL. Experienced in building academic and personal projects involving frontend development, backend integration, databases, and user-focused interfaces. Eager to contribute technical skills as a Junior Web Developer and grow within a professional development team.

OJT TRAINING / WORK EXPERIENCE

DIS 2021 - 2025

- Enhanced skills in problem-solving, adaptability, teamwork, and attention to detail through hands-on project experience.
- Assisted in CCTV installation and setup.
- Helped with fiber laying and fiber slicing tasks.
- Supported basic computer troubleshooting and maintenance.
- Developed responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Designed and implemented IoT-based systems
- Basic knowledge of Microsoft Office (Word, Excel, Canva and PowerPoint)
- Created user-friendly web pages and implemented basic website features.

WEB DEVELOPMENT PROJECTS

Freelance Service Marketplace Website

PHP, MySQL, HTML, CSS, JavaScript

- Developed a web-based marketplace connecting clients with freelance service providers.
- Implemented user registration, login, profiles, service listings, and service management.
- Integrated PHP with MySQL for storing and managing application data.
- Designed responsive and user-friendly web interfaces.

Hotel Booking System

HTML, CSS, JavaScript, Node.js, MySQL

- Developed a web-based hotel booking system for managing rooms, customers, and reservations.
- Implemented room availability and booking management features.
- Built backend functionality using Node.js and integrated database operations.
- Designed a responsive interface to provide a simple booking experience.

Car Rental System

JavaScript, Node.js, MySQL

- Developed a web-based car rental system for managing vehicles, customers, and rental transactions.
- Implemented vehicle availability and rental management features.
- Built backend services using Node.js and connected the application to the database.
- Created a responsive and user-friendly interface.

IoT Smart Home System

JavaScript, Node.js, Firebase, ESP32

- Developed an application for monitoring and controlling smart home devices.
- Integrated the application with ESP32 devices for remote device control.
- Used Firebase for data communication and real-time monitoring.
- Designed a simple interface for controlling connected devices.
